

Wolfgarten Spreader

WE430

Product Name	Wolfgarten
Product Code	WE430
Hopper Capacity	20kg
Minimum Spread	0.5m
Maximum Spread	0.5m
Weight	5.8kg
Assembled Dimensions	114x59.5x48cm
Hopper	Plastic
Frame	Coated Steel
Wheels	Plastic
Spread Volume Limiter	Yes
Spread Width Limiter	No
Adjustable Handle	No
Maximum Operating Speed	Walking Pace
Country of Manufacture	Germany

The Wolf Garten WE430 Drop Spreader is a lightweight, hand-push spreader built for precise application of salt, de-icer, fertilizer, or seed across walkways, footpaths, and cycle routes. It features a corrosion-resistant plastic hopper, a coated steel frame for added durability, and large plastic wheels that roll smoothly over various terrains. With a 20kg capacity and adjustable flow control, it delivers salt in a controlled, bounce-free manner across a spread width of approximately 0.5m. Weighing just 5.8kg and with a built-in stand and ergonomic handle, the WE430 ensures clean, professional-grade performance in smaller-scale winter maintenance tasks.
