

# TOGETHER WE CAN HELP STOP PLASTIC WASTE REACHING OCEANS AND LANDFILLS

Make a Sustainable Choice for the Washroom

## SCJ Professional® Proline WAVE

1 Litre Soap Dispenser

### Made of 70% Recovered Coastal Plastic

Recovered Coastal Plastic is post-consumer recycled plastic collected on land within 31 miles / 50 km of an ocean so that it does not reach oceans or landfill, in countries with high volumes of uncollected plastic waste.

# MAKE A SUSTAINABLE CHOICE FOR THE WASHROOM

Our SCJ Professional® Proline WAVE 1 litre soap dispenser is made with **70% Recovered Coastal Plastic** sourced from a global partnership between SC Johnson and conservation organisation Plastic Bank™.

Recovered Coastal Plastic is post-consumer recycled plastic collected on land within 31 miles / 50 km of an ocean so that it does not reach oceans or landfill, in countries with high volumes of uncollected plastic waste.

Each dispenser is made from the equivalent of **16 x 500ml Recovered Coastal Plastic** bottles

**Plastic Bank™ is a social enterprise** that empowers collection communities in vulnerable coastal areas in Indonesia, Philippines and Brazil to stop plastic waste before it reaches oceans or landfills, whilst improving the lives of those that collect it.

The SC Johnson partnership with Plastic Bank™ supports opportunities for over **20,000 people** in vulnerable coastal areas.

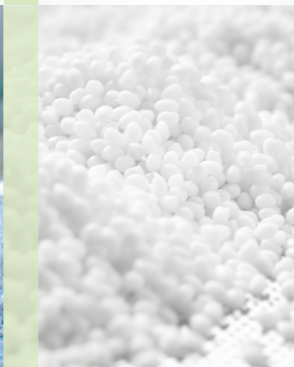

The **SCJ Professional® Proline WAVE** 1 litre soap dispenser has many benefits to make it a great choice for facilities that care about sustainability and want a reliable solution for their busy washrooms.

- Dispenser origin clearly printed on cover to communicate to users
- Lockable for security
- Large, easy to use button
- Easy to replace cartridges in seconds
- Non-drip, non-clog pump
- BioCote® Silver Ion-Based Protected Push Button<sup>1</sup>
- Guaranteed for Life<sup>2</sup>
- Battery free
- Hygienically sealed cartridges
- Easy to clean surface

**How recovered coastal plastic is converted** into the SCJ Professional® Proline WAVE soap dispenser:

- 1** Plastic waste is recovered by local collection community stewards
- 2** Taken to Plastic Bank™ collection stations
- 3** Processed locally into plastic flake
- 4** Converted into pellets for use in injection moulding
- 5** Manufactured at our plant into dispenser components

<sup>1</sup>BioCote® is a registered trademark of BioCote® Ltd. BioCote® technology effectively reduces bacteria, mould and fungi on the surface of the BioCote® treated SCJ Professional® Proline WAVE dispenser push-button within as little as 2 hours and achieves up to 99.99% reduction over a 24 hour period (efficacy independently validated by ISO methods). BioCote® technology maintains its antimicrobial protection for the lifetime of the dispenser button and will not wear off, wash off or leach out; it is not a substitute for good hand hygiene practices. <sup>2</sup>If a dispenser breaks due to normal wear & tear we will replace it. Check with your local SC Johnson Professional team for the terms and conditions applicable to the guarantee.

# USE LESS, GET MORE

The **SCJ Professional® Proline WAVE** 1 litre dispenser can be used with the full range of SC Johnson Professional® foam soaps, which compared with traditional lotion soaps provide people with an effective, pleasant hand wash using up to **45% less water** and **30% less product** when washing and rinsing<sup>3</sup>. That's more hand washes for the same product size.
