Introducing Vortex Technology

The dual brush heads rotating in opposite directions result in a deeper clean, improved stability, and ease of use.

This dynamic cleaning process lifts and agitates dirt effectively from all directions and angles.

The perfect power cleaner for every job

A new smart way to deep clean and maintain floors, grout lines, edges and corners, walls, stairs, ceilings, and more. Work easily with our powerful handheld vortex action power brush.

Small Spaces

Its compact and adjustable head makes it perfect for manoeuvring through small spaces with ease.

At Height

Reach new heights with the extendable handle, up to 8ft, ideal for ceilings and other difficult-to-reach areas.

Waterproof

The waterproof head ensures durability and makes it great for pool cleaning and other water-intensive cleaning applications.

Powerful cleaning for every surface

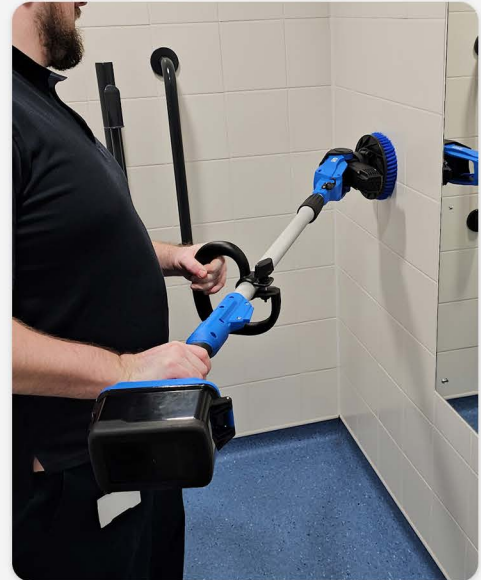

Effortlessly clean a variety of surfaces with our selection of carefully designed brush heads.

- Perfect for non-slip safety floors, ensures thorough cleaning without any hassle.
- Tackle tiled surfaces and effectively remove stubborn stains and grout buildup, leaving them looking as good as new.
- Natural stone surfaces regain their original appearance with ease, while resin surfaces can be deep cleaned effortlessly.
- Even chequer plate surfaces are no match for the PowerBrush XL 2.0, which picks out the ingrained dirt easily.

The PowerBrush XL 2.0 delivers exceptional results reliably and consistently, making it your go-to companion for manual mops and cloths.
