

URIKA

STRONG DESCALER AND CLEANER

- Removes scale and mineral stains
- Removes the source of malodours
- Food area safe
- Safe on stainless steel

USES

DEEP CLEAN; Back to the surface.

Use undiluted for removing stubborn hard water or rust marks from acid resistant surfaces.

Use diluted for cleaning areas where inorganic minerals are leaving stains or binding dirt to the surface.

SUGGESTED AREAS OF USE;

- A). Changing areas, shower areas, washrooms.
- B). Stainless steel; sinks, catering equipment, nozzles, utensils etc.
- C). Textured ceramic floor tiles.

DIRECTIONS

Apply either undiluted Urika or a solution of Urika to the surface, agitate if necessary and then remove the soiling and rinse with clean water.

NB. Do not use on acid sensitive surfaces eg. marble, terrazzo, vitreous enamel (eg. some baths).

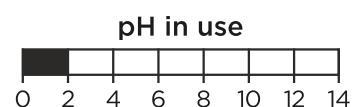

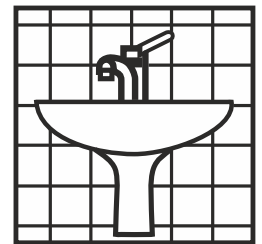

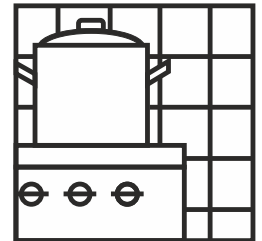

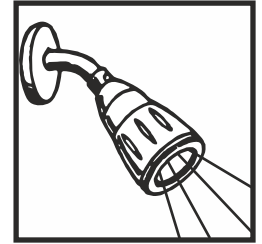

Do not use on hot surfaces and rinse away thoroughly from surfaces that may become hot.

DILUTIONS

URIKA : WATER	
Severe Scale - Undiluted	Light Soil - 1:80
